GDV Case Study Analysis

12PM – 2PM

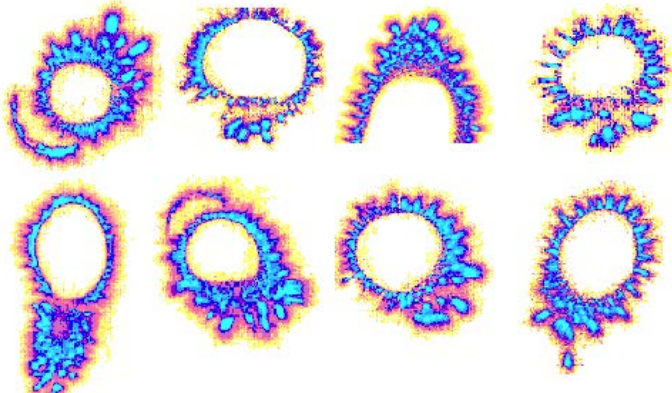

\$119

Case Study Webinar:

**CANCER
DIAGNOSTIC
STUDIES**

Please Join Us!

This webinar provides an opportunity for GDV users to learn the more advanced steps of in-depth GDV case analysis at home. The cases presented by Natalina Khavkin will be focused on patients with various stages and types cancer.

Participants may also submit cancer cases for group analysis with Natalina Khavkin. (*Cases must be submitted by June 13th, 2015 with a copy of the patient's GDV-images folder and .sbj file, as well as a short patient history and must be emailed to education@gdvsource.com*).

The key to accurate and reliable GDV research and analysis is a good understanding of how to evaluate the Human Energy Field using the GDV software suite.

Contact Mary Milroy at +1-856-829-0992 or info@GDVsource.com

* The Webinar is open to all GDV camera owners and users, but is most appropriate for intermediate to advanced level training. Registration will be evaluated accordingly. Class size is limited, so register early.

Natalina Khavkin – GDVsource Director of Education, RN (NY), Dipl. Ac. (NCCAOM), certified Esogetic Colorpuncturist began her doctoral medical studies in Russia, and completed her nursing training in the US. She has been a healthcare practitioner for the past 11 years, using Acupuncture, Colorpuncture, and Acu-tonics in her practice. Natalina is certified by KTI and GDVsource as a Master Instructor. Further, she and Mary Milroy are working on several research projects together, including ongoing structured water analysis, and vibrational healing analysis.

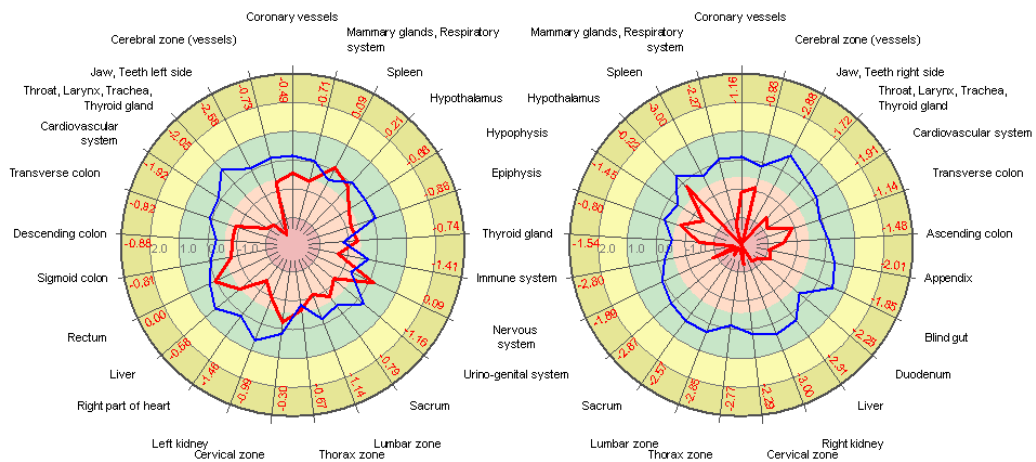

Mary Milroy, GDVsource - CEO, BSIE, Dipl. Esogetic Medicine, Dipl. Ac. (NCCAOM) is the North American GDV camera distributor, and owner of GDVsource, the official USA GDV Education & Research Center. She has combined an engineering and energy analysis background in cutting edge technology with ancient healing techniques. She is considered an expert in Esogetic Medicine (Colorpuncture & Energy Analysis). Her clinical experience includes extensive use of Kirlian and Electrophotonic Imaging as a Human Energy Field assessment system.
